LANDSDALE CHRISTIAN SCHOOL

Social Media Policy

Rationale:

Landsdale Christian School teachers are aware of the use of social media forums for students to communicate to others. We are also aware of the increasing abuse of these forums to denigrate and abuse others. Students with access to these forums will be encouraged to uphold their Christian values at all times.

Purpose:

To guide students in the respectful use and conduct while on the internet.

Guidelines:

1. Students are encouraged to use discretion and uphold Christian values while using social media that involves other students, staff or the school in general.
2. Social media is not permitted to be used at school.
3. Should teachers receive evidence of inappropriate behaviour between students at LCS on social media forums; appropriate action will be taken by teachers at school (eg, slander, bullying & sexting).
